FRANCE

Our Story

Graduated from *La Martinière Fashion school* in Lyon (France), Evelyne Prélonge worked as Artistic Director for over twenty years.

The French high fashion houses such as Chanel, Balenciaga, Dior, and even Lanvin request her to create new material effects and find innovative textile projects.

This experience brought her to launch, in 2008, her own range for Home: she developed a "Home Couture" collection around faux fur, with a unique & fabulous feel.

She emphasizes the French savoir-faire for all products. They are made by a dedicated team of highly skilled machinists and finishers, for whom quality and attention to detail is paramount.

Today, the brand presents two ranges: fashion and accessories on the one hand, decoration and art of living on the other.

Evelyne Prélonge is present on 5 continents and wishes to perpetuate the values of a softer world.

Our values

Quality: the right choice of materials

We select the highest quality of faux fur with fine and dense hair for a fabulous touch. All our faux fur fabrics are compliant with European REACH certification, which means that there are no harmful chemicals used in the manufacturing process.

Our faux fur fabrics and insert pillow are labelled Standard 100 by Oeko-Tex. This ecological standard guarantees the absence of harmful substances to health.

Made in France

All Evelyne Prélonge faux fur products are manufactured in France with a long-time business manufacturer in Les Vosges.

A human size, working for the biggest textile houses, the manufacturer is our business partner since the beginning of the adventure.

We are proud to show the French know-how: each item is cut and sewn by hand ensuring the luxurious finish.

We are committed to small productions, throughout the year, which ensures regular production.

100% faux fur

We are proud to be **Peta Approved**. PETA (People for the Ethical Treatment of Animals) is an animal rights organization.

ANIMAL-FREE ALTERNATIVES ARE THE NEW LEADERS OF LUXURY BY JEANNE GORDON

From the black to the emerald and in place of real fur, the new animal-free alternatives are the new leaders of luxury. The new fur is not like "plush" and "faux" but is a more sophisticated and softer, a fur that is more like a natural fur. It's not just about the look, it's about the feel. The new fur is more like a natural fur. It's not just about the look, it's about the feel. The new fur is more like a natural fur. It's not just about the look, it's about the feel.
